BANK OF ORR.

Conviction of Four Young Men in U. S. Court.

Fraudulent Scheme Successfully Worked in Lawrence County, Near the Elliott Line.

Four youths, who were indicted and sentenced by Judge A. M. Cochran in the Federal Court at Covington, were, according to the testimony, the originators of a notorious bank scheme used to defraud business houses in New York and other large cities. The youths are George White, 16; Marion Sparks, 20; Richmond Sparks, 18; and Dave Prince, alias Walter Bryce and other assumed names, 17.

According to the testimony the youths concocted a fraudulent banking scheme in Orr, Ky., a little mountain hamlet composed of a postoffice, blacksmith shop and a few residences. Dave Prince was the president, secretary and treasurer of the "bank." So far as the Government detectives can ascertain the lads realized \$2,300 from their scheme.

Attention was called to the "bank" by letters from New York City, Dayton, Ohio, St. Louis, Mexico and other cities, to the post-office inspector's office of the Cincinnati division, in which the merchants complained that they had been defrauded. Inspector E. F. Hutches was detailed on the case.

Money and merchandise, he found, were being secured by fraudulent means. Dave Prince, according to the testimony, while using his aliases, would give the "bank" as reference. In this way he secured the letters of merchants addressed to the "bank," asking if he was good for the bills he contracted. Assurance would be sent out by the "bank" that he was and the goods were shipped by the merchants.

The boys who helped Prince conducted the bank like experts, and drew drafts and checks on banks in Ohio, West Virginia and Kentucky, although they had no funds deposited anywhere. They branched out and sent checks for orders of merchandise. In every instance the checks exceeded the amounts of the bills ordered, and, in many instances the difference was remitted back to them in good checks.

A Dayton (O.) whiskey house was caught for a large number of cases of whiskey. This was "bootlegged" about the country, for which Marlon Sparks was indicted for selling liquor without a license.

A lot of revolvers were also secured by giving the "bank" for reference. While in jail, it is alleged, Prince ordered a pair of trousers, giving a bogus check. It also developed that they even defrauded the firms that supplied rubber stamps for the "bank," as well as those that supplied the stationery.

When the testimony was in Judge Cochran could hardly believe that the youths, born, raised and never away from the mountains of Lawrence county, engineered such a well-planned scheme to defraud. He asked if some older head had not advised the boys, but they declared that they had operated by themselves.

Owing to their youth, Dave Prince, Marlon and Richmond Sparks were sentenced to the Federal prison, Atlanta, for one year, while George White will be confined in the Campbell County jail for four months.—Cincinnati Enquirer.

Holcomb Meeting Grand Success.

Evangelist Walt Holcomb's great revival meeting came to a successful conclusion on Sunday night last. It had lasted twelve days, and the people were eager for a continuance, but while the spirit was willing there is a limit to human endurance, and regretfully and tearfully, but joyously, the last song was sung and on Sunday night the greatest revival in the history of Ashland was closed.

The history of the meeting parallels the history of Mr. Holcomb's

other meetings in this section: great crowds, hundreds of conversions and additions to the churches, a great awakening of the people to higher and better things, and the voluntary contribution of hundreds of dollars for the support of the Evangelistic Alliance.

The Ashland Independent has these last words concerning the meeting:

"Ashland will not soon forget the coming and searching power of this distinguished evangelist. He has faithfully warned every wanderer from God, whether in or outside of the churches of God in this city and vicinity. The high tide of religious interest is now to be followed up by the faithful pastors in united services in all the churches in easy access to the people. 'Behold how good and pleasant it is to see brethren dwell together in unity.'"

Masonic Temple for Ashland.

Poage Lodge No. 325, F. & A. M., of Ashland, is going to build a fine temple in that city. The lodge owns a 75-foot lot on East Winchester avenue, between 16th and 17th streets, and it is on this site that the Masonic hall will be erected—a most desirable and admirable location in every respect. The proposed location is one of the best in the city, and it is a certainty that the structure will be modern in every respect. The Masonic Lodge, Knights Templar, Royal Arch and Shriners of Ashland have a large and wealthy membership, and nothing but the very best in the way of a new lodge home will satisfy them.

MRS. BEN BURKE

Died of Consumption at Her Home in Louisa Last Friday.

After a lingering illness which she bore with Christian fortitude and resignation, the spirit of Mrs. Sarah Burke left its frail tenement of clay on the afternoon of Friday, April the eighth, and winged its way to the house eternal. On the Sunday following, at the M. E. Church South, in the presence of a very large concourse of friends and relatives, the Rev. O. F. Williams, pastor of the M. E. Church South, of Russell, Ky., preached the funeral sermon of her whose friend and pastor he had once been, but who now, an untimely victim of tuberculosis, lay before him in her flower-laden casket. At the close of the solemn and touching service the body was taken to the Fulkerson cemetery, followed by a large number of people of this city and other places who in this way testified to the esteem in which Mrs. Burke was held and manifested their sympathy for the bereaved husband and the relatives who mourn the loss of a sister and daughter. There the last office for the dead was pronounced, and the places which once knew the much loved woman will know her no more forever.

Mrs. Burke was born on Beaver Creek, Floyd county, Ky., about twenty-five years ago. Her maiden name was Allen. Three years ago she and her husband, Mr. Ben Burke, came to Louisa and took residence with us. She soon endeared herself to all who met her, and more particularly to those who were her neighbors. These mourn for her as for the loss of a much loved relative. She was gentle and retiring in disposition and manner, cheerful even when racked with the pain of disease, helpful when it was possible to help. She was a faithful member of the M. E. Church South, and was supported and comforted by the promises of her religion through her long illness, dying in the full assurance that her faith in God and His Christ would guide her to a blessed immortality.

The following relatives were present at the funeral of Mrs. Ben Burke: Her sister, Miss Dollie Allen, of Floyd county; Mr. Burke's mother, Mrs. James Burke, of Catlaipa; his brother and sister-in-law, Mr. and Mrs. Ed Burke, of Pikeville; A. J. Loar, of Huntington; Mr. Burke's sister, Mrs. W. M. Cooksey, of Grayson, and Mrs. Will Burke, of Catlaipa.

Mrs. Ben Burke left no children.

Bible Study.

The seeker after light and information concerning the Bible has opportunity in Louisa not often found elsewhere. In these days of research and investigation the Bible comes in for its full share. Men and women are asking and reading, not being content to read the Scriptures blindly and ignorantly. Many who go to church and listen to the reading and expounding of the Word fail to derive from this attendance "that knowledge which comes from home study and lucid explanation by one thoroughly familiar with the Bible."

There is afforded to us an opportunity for the profitable study of the Scriptures which should be eagerly embraced. This golden time is the weekly meeting of what is known as the Bible Circle Study, a circle which meets every Thursday evening in the M. E. Church South for the regular, systematic study of the best of books. It is conducted in a very interesting and practical way by Prof. E. M. Kennison, of the K. N. C., himself a Presbyterian minister. He is familiar with his subject, is a fine Hebrew and Greek scholar, and teaches in a way which makes him understood by all.

The entire matter is thoroughly undenominational, completely unsectarian. No "doxy," no "ism" is taught. The circle is open and free to all, no fees, no collections, no "lessons" to be learned. But the earnest, thoughtful attendant does learn an immense amount of valuable knowledge. Attend one time, and see if you do not go regularly thereafter.

She Has Visited Louisa.

Boston, Mass., April 12.—Miss Margaret Fitzgerald, of Maysville, Ky., it was announced by the Athletic Association today, has been chosen to compete for the Lincoln Challenge Cup in the all-round tournament to be held this month at Wellesley College. Miss Fitzgerald will be on the junior team of ten. There will be thirteen events in the competition and they will be judged according to the "form" in which they are performed.

Miss Fitzgerald was a member of the house-party last summer, given by Mrs. Eugene Buffington, of Chicago, at her old home, "Beechmoore," in Catlettsburg.

The members of the party visited Louisa as guests of Mrs. Hannah Lackey. Miss Fitzgerald was quite a popular member of this house-party, and many of the "younger set" here will remember her pleasantly.

An Old Citizen Gone.

"Uncle" Russell Thompson, formerly of this county and this city, died Wednesday at his home in Boyd county, near Kavanagh, where he had lived during the past three or four years. Mr. Thompson was born on Little Blaine, and to his old home on that creek his mortal remains will be taken for interment, which will occur on Friday. By his first wife Mr. Thompson had sixteen children. His last wife was Miss Samantha Pigg, of this place.

Mr. Thompson was a highly respected Christian man, sober, industrious and intelligent. Those who knew him best speak of him in terms of highest praise. He died of pneumonia and was seventy-two years old.

Have Gone to Children's Home.

Mr. Waller, an agent of the Children's Home at Louisville, was here this week collecting destitute children. He left this morning taking with him two bright children, a boy and a girl, whose mother is Mrs. Ida Stults, a widow.

Other children were expected, but at the last moment they were not to be found.

Have Gone to Oklahoma.

Mr. and Mrs. W. E. Houston, formerly well known and popular residents of this city, and who have been until recently living at Olympia, Ky., have gone to Haworth, Oklahoma, where Mr. Houston has a position with a large company. Their Louisville sojourn is

THE CENSUS.

Work on This Big Job Starts Today.

Interesting Facts About It, and List of Lawrence County Citizens Who Will Do the Local Work.

With the break of day on Friday, the 15th instant, a host of 70,000 interrogators, men and women, white and colored, will be turned loose in pursuit of the people of the United States. On that day Uncle Sam will begin the numbering of his children in preparation for the Thirteenth census. He estimates that he has a family of about 90,000,000 men, women and children, and he already has employed and will put to work a body of enumerators considerably greater than the standing army.

The law provides that the enumeration shall begin on the 15th, but it is not so peremptory about the commencing time as about the closing time, and already intimations have been received that in some instances the work may be postponed until Saturday. This is due to the fact that the 15th falls on Friday, and among the 70,000 enumerators there are some who are superstitious as to this day of the week.

The enumeration will cover all of the forty-five states and two territories of the Union proper and also Hawaii and Porto Rico, Alaska, the Philippine Islands and Guam will not be included, as special arrangements are made for numbering the people of those dependencies.

Under the statutes governing the work the entire enumeration must be completed within a month, and in the cities the work is limited to fifteen days. It is expected that some of the returns from the cities will be received as early as the first week in June, but the exact population of the entire country will not be determined before some time in September. The census officials will, however, know within a few thousand of the number long before the close of the summer months. They will be able to reach a substantially accurate conclusion by their payrolls, but this will be more or less speculative, and the figures will not be given out.

The following is the list of the enumerators for Lawrence county and their districts:

....., 94; No. 1, (part of) and No. 8 (part of); all of Louisa town.

Fran C. McClure, 93; No. 1, (part of); all of Magisterial district No. 1 lying outside of Louisa town.

Daniel J. Maynard, 95; No. 2, (part of); all of Rockcastle voting precinct and that part of Peach Orchard voting precinct lying on the east side of Levisa Fork of the Big Sandy river.

Robert Hetfield, 96; No. 2, (part of); all of Oambill voting precinct and that part of Peach Orchard voting precinct lying west of the Levisa Fork of the Big Sandy river.

M. M. Burgess, 97; No. 3, (part of); all of Georgea Creek voting precinct.

Sylvester Ball, 98; No. 3, (part of); all of Little Blaine voting precinct.

Stanton Miller, 99; No. 4, (part of), including Blaine town; all of Blaine voting precinct.

Wm. M. Chapman, 100; No. 4, (part of), excluding Blaine town; all of Cherokee voting precinct.

Wm. M. Gambill, 101; No. 5, (part of), including Blaine town, (part of); all of Swetnam voting precinct.

Morton E. Sparks, 102; No. 5, (part of); all of Lyon voting precinct.

Isaac Cunningham, 103; No. 6, (part of); all of East Fork and Cat voting precincts.

Thomas W. Hensley, 104; No. 6, (part of); all of Dry Fork voting precinct.

Lindsey O. Waller, 105; No. 7, (part of), including Fallsburg town; all of Fallsburg voting precinct.

Zack Bellomy, 106; No. 7, (part of), excluding Fallsburg town; all of Bear Creek voting precinct.

W. J. Roberts, 107; No. 8, (part of), excluding Louisa town (part of) all of Busseyville voting precinct and that part of Lower Louisa voting precinct lying outside of Louisa town.

Rice McClure, 108; No. 8, (part of), excluding Louisa town; all of Twin Branch voting precinct.

Are Making a Mistake.

There are ten families who came down over the Ohio & Big Sandy branch of the C. & O. railroad this forenoon who were moving up the Guyan Valley where the men are to be employed at some of the coal mines along that road. Most of them came from the neighborhood of Whitehouse. During the spring there has been a great exodus from the Sandy Valley of farmers who have gone to other counties of the state that they claim are better adapted to their business than the counties along the Sandy river. That most of them are making a mistake there can be no doubt, as all that is necessary to make the farming industry exceedingly profitable in the counties adjacent to the river is for the farmer to stick to it and employ the more modern means and scientific principles in their work when they may make plenty of money at their business.

With the rapid development that is going on along the river it can not be but a few years when there will be one of the best markets in that section for farm products to be found anywhere.—Catlettsburg Tribune.

LIFE-TIME SENTENCE

Seems to be in Store for Samuel Crabtree, Formerly of Louisa.

Although a life-time sentence under the habitual criminal act is staring Samuel Crabtree in the face in West Virginia, the grand jury in session in Covington fastened another link on him, in the event he is not convicted in Virginia.

Crabtree was indicted for blowing the postoffice safe at Greenup, Ky., and securing \$504.75 in cash and stamps December 6th of last year. His arrest was brought about by the Postoffice Inspector's Department of the Cincinnati Division. The Government sleuths traced Crabtree's "swag" to Green Bottom, northeast of Huntington, W. Va., where he buried his nitroglycerine, revolvers, fuses, drills and other safe-blowing paraphernalia.

Before taken into custody by the Government officers, Crabtree, as the Virginia authorities claim, held up a man named Charles Skirba, of Charleston, W. Va., by knocking him in the head and robbing him of \$40.

While in the jail at Huntington, Chief of Police Robinson told Crabtree the Government authorities had the "goods" on him for the Greenup job. Realizing his position and knowing that he had served three terms in the penitentiaries of Kentucky and Virginia, he made a written confession to Chief Robinson covering the Greenup burglary. The Government believes that the West Virginia Court will put Crabtree away for life under the habitual criminal act, whereas if the Federal Court tried him first he would get off with a sentence of about three or four years in the penitentiary.

Percy Blackwell, believed to be an accomplice in the robbery in West Virginia, and who was serving a sentence at Catlettsburg, Ky., was brought to Huntington for trial. Crabtree, so the Government officials claim, is an accomplice of the notorious Hart's Creek gang, sent up by District Attorney Elliott Northcott about three years ago. It is also believed Crabtree was affiliated with some of the yeggmen who were working in Cincinnati and who attempted to blow the Newport postoffice safe only about six months ago. If he escapes the Virginia authorities he will be tried by the Government officials in Covington.—Cincinnati Enquirer.

Isaiah Wiley

Isaiah Wiley, of Louisa, was sent by the Lawrence County Court to the penitentiary a year last winter for voting in the same election, has been freed by the Governor.

The testimony showed that he was almost feeble-minded and he hardly knew right from the Governor's eye, in his favor for the pardon. He said evidence was that Wiley, being once, was given whiskey election worker and taken to other precinct and voted. He has served about four months one-year term in the penitentiary and the Governor orders his release from the penitentiary, but right to citizenship is not He says:

"I think that this man should be restored to the right to vote and never should be permitted to vote at all."

Committee Meeting.

The Executive Committee of the Lawrence County Sunday School Association is called to meet in the M. E. Church South in Louisa on Saturday, April 23rd. Each member of the committee is requested to be present and all district officers are invited to meet with the committee. R. T. Burns, Pres. O. J. Vaughan, Sec.

Whitesburg, Ky., April 18.—News from Wise, Va., across the border, brings intelligence of the death of Creed F. Flannery, aged 60 years, a wealthy Kentucky and Virginia property holder. He leaves an estate valued at about half a

million dollars, consisting of coal lands, principally in this State and Virginia. He was also a large bank stock owner.

Whitesburg, Ky., April 18.—The country home of William Thornberry at Beaver Creek, was burned, entailing a loss of \$5,000, with no insurance. The fire originated from a defective flue.

Whitesburg, Ky., April 18.—Aunt Nancy Sargent, aged 70 years, wife of Stephen Sargent, and one of the county's best-loved old women, died at her home near Democrat, after a long illness. She leaves many descendants.

Scott's Emulsion

is the original—has been the standard for thirty-five years.

There are thousands of so-called "just-as good" Emulsions, but they are not—they are simply imitations which are never as good as the original. They are like thin milk—SCOTT'S is thick like a heavy cream.

If you want it thin, do it yourself—with water—but don't buy it thin.

The deeds of Doan's Kidney Pills.
For Louisa kidney sufferers.
Have made their local reputation.
Proof lies in the testimony of
Louisa people who have been cured
to stay cured.

Mrs. Sarah Pigg, Main Street,
Louisa, Ky., says: "I suffered from
many distressing symptoms of kid-
ney trouble. My back was the
weakest spot and the dull, heavy
pains through my loins were almost
unbearable. I was weak, tired and
devoid of ambition and often was
nervous by headaches and dizzy
spells. Irregular passages of the
kidney secretions also bothered me
and I felt like giving up. Doan's
Kidney Pills were at length brought
to my notice and I began their
use. Before long the kidney secre-
tions were regulated and the other
symptoms of my trouble disappeared.
I strongly recommend Doan's Kid-
ney Pills to my friends." (State-
ment given June 27, 1908.)

On June 22, 1909, Mrs. Pigg add-
ed to the above: "I can safely say
that Doan's Kidney Pills cure kid-
ney trouble permanently. During the
past year and a half I have not had
the least return of this complaint."

NEW WASH SUITS.

Beautiful Materials, Correct Styles and Popular Prices.

We take unusual pride in announcing the arrival of our new line of Wash Suits for the spring and summer season. The tendency to purchase garments in preference to materials has been growing for some time and any woman is wise in so doing when she can obtain the kind of garments that this showing represents. While we show a complete line of practically every fabric and conceit that will be popular, those in greatest demand will be the white and natural fabrics of which we have a large selection of excellent styles and values.

PRICES RANGE FROM \$5.00 UP.

The first named we believe to be the minimum figure at which a satisfactory garment can be sold and ranging from this price on up will be found the most beautiful of the season's styles in a great variety of new effects and in many weaves and a full range of sizes.

Each price represents its equivalent in actual value; a selection of styles representing the best obtainable; and the range of weaves and effects are sure to please our most discriminating trade.

Early Selections are Preferable

because it gives the purchaser choice of the stock at first hand. The best styles and the most exclusive garments are usually sold at the beginning of the season. There is a great difference in selections that suit our fancy as to style, fit, color, and effect, and in making purchases of what you can obtain after the better numbers are taken and this difference is all in favor of the early purchaser.

Tonic or Stimulant?

There is an immense difference between a tonic and a

NEWS OF THE FARM

How to Make Butter Pay.

We have made butter for years and have always secured the very highest price for it, sometimes getting forty cents per pound from our city trade, when our neighbors were glad to get eighteen and twenty, many times going as low as fifteen at the village store, and a loss to the groceryman at that, writes S. A. Lytle in the Farm Journal.

We keep a small number of cows, so I can look after the dairy work myself with the exception of milking. We are very careful about the washing the butter with the temperature of the cream at about 63 degrees.

After getting the butter well gathered, which I do by gently turning the churn half over and half back, I lift the mass from the milk into the bowl and, if warm, set at once to cool. When cool I salt it, and work until it begins to get soft. Do not work it when soft; it makes the butter oily. Then I set away to cool again. I do this about three times, or until the butter is entirely free of milk, as the leaving of milk in the butter causes it to decompose very rapidly and makes rancid butter.

I do not wash my butter at all, for my experience is that it will stay more solid, have a better grain and keep four times as long as when water is used.

How to Milk a Cow.

It is a well-known fact that some cows will withhold the milk flow under certain conditions. If a cow is irritated or abused in any way she will charge it up to the owner by a decreased milk yield, writes Charles Nelson in an exchange.

It is also known that the first strippings of milk may test only one per cent of fat while the last may test as high as twelve per cent. The strippings from a cow are always the richest. Hence the importance of drawing the milk to the last drop.

A farmer brought in his milk samples from each individual cow to the buttermaker to be tested. Samples tested from five to ten per cent. The buttermaker on inquiring found that after having finished the regular milking the farmer stripped each cow, placing some in each bottle, securing in that way a very fine sample. Milking should be done briskly without irritation to the cow. Excepting in the case of the first few milkings after parturition, the last strippings should be thoroughly drawn. Mr. Hegeland, of Denmark, has a system of milking which has increased the milk flow per cent, and the fat content about nine per cent over the improving.

WEST VIRGINIA NEIGHBORS.

The telephone line has been completed from Whites Creek to Wayne, and you are now able to find out what every family will have to eat, as this seems to be the main question that agitates the minds of the patrons of the line.

Another victim was claimed Wednesday morning on the Williamson yards when an old man named Ramsey was killed on the eastern end of the yard tracks. Both legs were severed, and he died a few minutes after he was taken to the Y. M. C. A. hospital. He was employed on the cleaning force in the yards and was a man about sixty years old. His home was near Merrimac.

Floyd E. Williamson Dead. Col. Floyd E. Williamson, one of the oldest and most respected citizens of that section, passed away at his home on Turkey Creek, last Monday a week ago, after a lingering illness. While his death was not unexpected it nevertheless came with poignant grief to his devoted family and to the countless friends who knew and loved him.

The funeral services were held at the late home Wednesday morning, the large concourse of people testifying to the high regard in which he was held by the people of Mingo and Pike counties where he spent almost his entire life. The funeral was one of the largest held in that section and the services, though simple, were impressive. Rev. Ellison, of the Methodist Church, officiated. Interment was made in the family burying ground.

Col. Williamson was born September 14, 1846, where the city of Williamson now stands, the home being the first one built on the present town site. It stood in the "orchard" for many years, being destroyed by fire about six years ago. He was the son of Benjamin and Esther Williamson, pioneers of this section, whose children have been prominent in all walks of life. —Mingo Republican.

Government Whitewash. The receipt for what is commonly known as "government" whitewash for both indoor and outdoor work, is as follows:

Half a bushel of unslacked lime; slake with warm water, covering it during the process to keep the steam; strain the liquid through a fine sieve or strainer, add a peck of salt previously well dissolved in warm water; three pounds of ground rice boiled to a thin paste and stirred in boiling hot; half a pound of parissh, whiting and a pound of glue that has previously been dissolved over a slow fire. Add five gallons of hot water to the mixture; stir well and let it stand a few days, covering it from the dirt. The whitewash should be put on hot.

Danger to Chickens.

During April many broods of young chicks will be hatched out and we should have places prepared for them so that they may shelter during storms. When it begins to rain slightly, the hen will usually take the brood to the nearest tree or shrub and cover there until it begins to rain hard; then she will make a break for the house and most likely the entire brood is lost, or it may begin in a sudden downpour so that it is impossible for them to escape. The best and simplest way to care for young chicks is to have a coop and box made as follows, ready for them when they come from the nest. Ordinary building laths are just right. Build the coop about eighteen inches high and the full length of the laths square. At one end leave an opening large enough to admit the hen and place a box at it, large enough to accommodate the brood at night.

The chicks can pass out and in at will, and if a rain comes up or other dangers are threatened they will run to the coop. The coop should be given in a place where the old fowls can see them. After about two weeks the hen will begin to lay, and should then be allowed to return to the house with the other chickens. The chicks should be made to return to the coop to roost and for food until they are two months old and even older. The coop should be kept under shade trees and, if possible, where there is grass, the location being changed every few days.

To Get Rid of Pests.

Lumps of camphor scattered through the pantries and cellars will drive off the pest of tiny red ants that sometimes, and without apparent cause, infest places where food is placed. It is now known that mice and rats have an aversion to camphor and will not go where it is. A lump placed at the mouth of rat and mice holes, while waiting for the carpenter, is sure to keep the mice away. If one is in the habit of placing table cloths in hampers to wait for washing day, a lump of camphor in a cheese-cloth bag tied to the hamper will also prevent the mice from coming.

To clean a clothes-line, first roll it in a ball, then take a scrub-brush, soap and water, and scrub the outside of the ball; roll up that which has been scrubbed in a new ball, and continue scrubbing and rolling until it has been cleaned. Then rinse it thoroughly. This is a very good way to avoid troublesome knots.

Shake Into Your Shoes. Allen's Foot-Ease, a powder, it cures painful, swollen, smarting, nervous feet and instantly takes the sting out of corns and bunions and makes walking easy. Try it to-day. Sold everywhere, 25cts.

Serious Accident at Williamson.

Hoping to escape arrest on an indictment charging him with a felony, Auxier J. Walker fled from his home in Williamson Sunday night when Deputy Sheriff W. N. Cole appeared at his front door to take him into custody. Walker's attempt to escape had been anticipated and another officer was stationed in the rear of the house. As Walker sped along the alley he was several times commanded to halt and when he failed to do so the officer discharged his gun, hoping to frighten him into submission. However, the bullet found a vital spot and Walker died in the hospital at Welch Tuesday morning. The missile struck him near the middle of the back, just missing the spine. There was seven perforations of the intestines. Walker was conscious until near the end.

Objections Filed to Master's Report.

Both the State of West Virginia and the Commonwealth of Virginia filed in the Supreme Court of the United States exceptions to the report of Charles E. Littlefield, special master, to ascertain certain facts as a basis of arriving at the proportion of the debt of Virginia before the organization of West Virginia that the latter State should pay to the former. According to the report, West Virginia may be called upon to pay between \$3,000,000 and \$9,000,000 to the mother State. The principal exception to the report is that made by West Virginia objecting to the master including the aggregate amount of ordinary expenses of Virginia from 1823 to 1860, the sum of \$18,000,000, as interest on the public debt. This was the last day on which exception could be filed. The court will now set a day for argument and will then take the case for final determination.

Appeal for the Border States.

In his recent speech upon the pension appropriation bill, Hon. John W. Langley, of Kentucky, took strong grounds in favor of granting all old soldiers a pension of one dollar a day and made a very able argument favoring the pensioning of the survivors of those state organizations which, while not numbered into the United States service, were yet doing the duty of defending the Union and very efficiently protecting their respective states from occupation by the Confederates. There are thousands of men in the border states who served the cause of the Union in the Civil War, and et, the muster rolls of the United States not carrying their names, they as yet are not eligible to pensions for that service.

It was largely upon this injustice, as he deems it, that Mr. Langley dwelt in his address to the House of Representatives, and he gave facts, figures and detailed instances of long, arduous and important services performed by men and organizations during that war, which, in his opinion, should be recognized by the General Government in the annual appropriations for pensions.

That Mr. Langley has not overestimated the importance of the work of the organized militia and of the unorganized volunteers of Ohio, Indiana, Kentucky and other states is well known to the men still with us who are familiar with the events of that great struggle. The time will yet arrive when the services of the militia will be recognized appropriately by the Congress of the United States.

Mr. Langley's tribute to the valor and sincerity of the soldiers of both North and South was exceedingly eloquent, patriotic and timely.

Forced To Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. It's surely the King of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, La Grippe, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at A. M. Hughes.

Crops in Fifth Agricultural District.

Carter County—"It has been dry all through March. There has been a great deal of plowing done. Plant beds all sown, and it is rather dry for small grains." "Scarcely any potatoes planted. Can not say anything about fruit as it is not in bloom yet. Hogs worth 12c per pound. Horses and mules very high—forty per cent. higher than last April."

"Wheat looks very sorry and the prospects for tobacco are greater in this section than ever before, judging from the beds that have been sown."

Elliot County—"The tobacco crop promises to far exceed any ever planted, and plants are beginning to come up now. This crop will badly affect the corn crop, and will probably cut it one-third."

Greenup County—"We have had plenty of pretty weather through March, only cool at nights, which tends to hold fruit back. We have had very little rain fall in January, February, and none in March."

"Hogs are almost a nonentity. Wheat is not raised in the last few years. Tobacco seems to be the leading crop. Sorghum is next in importance."

Johnson County—"Weather conditions very good for farm work, yet very dry and hot for March."

Knott County—"Horses and mules are about the same in number as last year. Cattle, sheep and hogs have about all been bought up and driven off. The farmers have done more plowing now than at this time last year."

Lawrence County—"Farmers are well up with plowing. More potatoes are planted than ever before. Considerable gardens made. Fine prospects for fruit if frost will keep off."

Magoffin County—"I can not report on fruit, as it is too early yet. People seem to be doing well this spring plowing for corn. The weather has been fine for the business."

Martin County—"This is a poor farming country and rough. There is a scarcity of hogs and not many cattle. Some sheep."

Morgan County—"This month nice weather now—82 degrees now. Nights cool and days warm. Some of the fruit blossoms are coming out; have not had much rain. The sap is rising slowly, and the prospects for a fruit crop looks all right at this time."

The Fountain Head of Life

Is The Stomach. A man who has a properly digested food, a strong and improved system, and a healthy mind.

Dr. Pierce's Food and Health makes the stomach strong, restores the liver, improves the digestive system, restores the blood, and builds the body. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment.

This "Discovery" is a pure, glyceric extract of American wheat, absolutely free from alcohol and all impurities, habit-forming drugs. All its ingredients are printed on its wrapper. It has no resemblance, in secret nostrums. Its every ingredient is endorsed by the leaders in all the science of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during the last 40 years. On Diamonds

We Save You Money.

We do not carry diamonds in stock because this would not pay in a town of this size, but we can do much better for customers by making special orders for exactly what they want. Dealers who carry the goods in stock necessarily have a considerable amount of capital tied up all the time and they must have larger profits to justify this outlay. We want only a slight profit, enough to pay for the time and trouble involved. Having been in the jewelry business for nearly twenty years we know where to buy the most reliable goods for the least money possible, and this is a most important point. We have an arrangement to get as many stones as you desire to select from.

We will save you from \$15 to \$25 (and sometimes more) on each \$100 invested in a diamond.

We guarantee qualities to be exactly as represented, and behind our guarantee is that of the largest diamond cutters in America.

Without boasting about it we have sold a considerable number of very satisfactory diamonds in this way—this sensible and economical way.

PIKEVILLE.

Monday at about 1:30 p. m., the rapid firing of a pistol, and the blowing of the whistle of the Elkhorn division passenger gave warning that there was a fire, when 'twas soon discovered that the big Flanery building, a business house, was in flames, caused from a gasoline tank and stove exploding in a restaurant on the first floor of the building. Owing to the low pressure of water in the city reservoir, but little could be done from that standpoint and the flames quickly spread to the upper story where were the law offices of W. H. Flanery, containing his \$3,000 law library, the law office and furnishings of J. E. Childers, office of Stoney Arnick, civil engineer, all of which, with the rest of the building was consumed. The big barber shop, occupied by Will Hunter, in which three barbers were employed, and the Star restaurant occupied the first floor. The barber fixtures, which belonged to Mr. Flanery, and a typewriter is all that was saved. The building belonged solely to W. H. Flanery and there was not a dollar's worth of insurance, owing to the high rate demanded by the companies. The reason for this was the carpenter shop and builders' supply establishment of T. J. Williamson's which was directly against the Flanery building and which looked to be very combustible. The building had only last felt had a fine heating system, bath, toilet, etc., placed in it, which caused an outlay of \$900; consequently Mr. Flanery's loss at the lowest estimate is six thousand dollars. He prized so much among his diplomas one framed and hanging on the wall, issued by the University of Michigan and containing the signature in his own hand of Judge Cooley, the great author of constitutional law, and which was affixed shortly before that eminent jurist's death. The loss is so heavy that it will take years to recover from it. Mr. and Mrs. C. M. Freeman, Mrs. Pierce, Supt. of the Deaconess Home and Training School of Cincinnati, and Miss Solomon, sister of Mrs. Pierce, came up Monday and left in the afternoon for Elkhorn, where Mr. Freeman and the ladies will interest themselves in Miss Dora Bridges' mission work. They will return here Wednesday and will leave for Ashland on that day.

Judge W. H. Holt, who was appointed to preside at the trial of the contest cases, arrived here on Monday and the trial is now in progress.

Dr. J. F. Record and Rev. M. D. McClelland have returned from Ashland, where they attended the presbytery.

TORCHLIGHT.

On last Sunday evening as the shades of twilight gathered into deepest darkness around the home of John D. Mounts, inside the home joy prevailed. For in the presence of a few friends a matrimonial knot was tied by Rev. J. T. Fraley, the contracting parties being James Williamson, aged 23 years, an employee of The Louisa Coal Co., and Miss Martha Mounts, aged 16 years, eldest daughter of John D. Mounts. The young folks have the best wishes of all for a long and prosperous life.

Born, to the wife of Thomas A. Ronche, on last Saturday evening, a girl: Tom, also, has cause to rejoice.

Miss Thurza Vinson, of near Glen Inns, was visiting her sister, Mrs. Sherman Parsley, last week.

D. W. Collins and C. C. Carter spent Sunday evening at Walbridge.

A fine fox chase was indulged in last Saturday night by a large number of our boys. The result, how-

ever, was not great, owing to continued rain and the inclination of the dogs to chase the playful hare. T. J. Chapman, our excellent deputy sheriff, was here last Tuesday, doing some court work.

A large number of our people took in the excursion to the Chapman lock last Sunday, given by the steamer Thealka. Quite a nice ride was enjoyed.

Esquire Miller and Constable Jim Stidham were here last Saturday.

Rev. J. K. Thompson, of Lick Creek, was over to see us Tuesday.

Married, on the 16th, George Watkins, aged 23, to Miss Nancy Belcher, aged 18. The wedding occurred at the home of the bride's parents near Gallip, Rev. Green Patrick officiating. These people are worthy young folks and their many friends join in wishing them a pleasant journey through life.

J. A. Collinsworth, of Potter, was here Tuesday looking for live stock, but finds that cattle and hogs are quite high and scarce.

W. H. Craft, of Miller's Creek, visited his parents here Saturday.

Wayne Cohorn, of Three Mile, headquarters for the oil men, informs us that the tools are fast in well No. 4 at a depth of 1400 feet, and fishing tools will be brought from Parkersburg with which to remove them. Buckskin Bess.

KENTUCKY NEIGHBORS.

Mrs. Walt Walker, of Greenup county, has given birth to six children in seven years, all single births.

The Wayne Oil Company has cancelled about all of its leases on lands north of Wayne, as everything seems to indicate the pool as being south of there.

Thomas H. Neal, a prominent attorney at law in Ironton, died Friday night at his home, after a protracted illness. He was 64 years old and was born and raised in Gallia county, Ohio, and for a while was a leading teacher in that county.

A ferret belonging to Ceell Willis got out of its quarters last Saturday, and not having taken a romp since the hunting season last winter, it started on a tour and ended with the destruction of 42 little chicks for Mrs. R. E. L. Wilson.—Greenup Gazette.

Miss Zona Robinson, a 17-year-old girl, whose home is in Ironton, had a narrow escape from death Tuesday evening at the home of her uncle, Wm. Baragood, at Greenslat, Greenup county. She had been taking arsenic for a nervous trouble, and by mistake took so much that it took a doctor a long time to save her life.

There is a rumor current in this community that John Fetterly, the founder and proprietor of the tiling plant at this place, will leave for Salyersville, where the people offer him a bonus of \$1,500 cash to move his plant there. We said "rumor," but as soon as we heard it we interviewed Mr. Fetterly to get the facts, and he verified what we had heard. He said he was greatly discouraged because out of about thirty-five who had signed contracts to use the tiling only three have complied with their promises, and meantime he has the tiling already burned, and ready to burn more than fill all contracts.—Herald Green Herald.
